Homework Assignments

Homework assignments with mandatory hand-in of solutions will be requested during weeks 36, 38 and 39 with deadlines on Sep 11, Sep 25 and Oct 2.

Laboratory Exercises

Laboratory exercises will be held in the course laboratory Lab B in the ground floor of the M-building. Booking for the laboratory sessions are to be found via the home page and bookings are accepted two weeks before the first session will be held. Laboratory sessions will be made in groups of three students.

Lab PI2	w.39	Lab B	Jacob Bergstedt	2224287	Interactive identification
Lab PI3	w.40	Lab B	Fredrik Bagge Carlson	2220847	Synthesis

Projects

Projects should be made in teams of three students and the subject of study should be chosen in cooperation with the instructor by **Sep 25**. The project should be finished and reported during the autumn semester 2015. Oral reports will take place in the lecture hall **M:B on Friday, Nov 25, 10.15 a.m.-**. The project laboratory, with computers is available to the students. An entrance card to the laboratory and permissions will be issued at the office of Mr. Anders Blomdell, M:2429, M-building. (Notice that a separate permission is required to enter the M-building. This should be acquired before visiting Mr. Blomdell.)

Exam and Exam Policy

The final exam is to be given on **Friday, Oct 28 at 8.00-13.00 (8am-1pm in Eden 025**. Course literature (excluding old exams, exercises, and solutions) may be used during the exam. The grade of the exam (3, 4, or 5) will be posted on the notice board at the ground floor of the M-building. The final grade will be issued when the course project has been accepted. A well performed course project may increase the final grade by one unit as compared to the written exam.
